

Newsletter Update - October 2020

16th October 2020

Dear Parents,

HALF - TERM

Kindly note that our half term break begins next week (Monday 19th - Sunday 25th October). We will not have any online lessons - live or pre-recorded. Our online learning will resume on Monday 26th October 2020.

ONLINE LEARNING FEES - TERM ONE

I would like to take this opportunity to thank all the parents who, despite difficult economic situations, have already made prompt payments for their child/children's online learning fees. Your support in honouring this commitment is most certainly appreciated.

Kindly note without these regular payments, our school would not be able to provide our amazing learners with the very best holistic online education, provided by qualified and professional teachers who have created tailor-made instructional and academic resources for your child's learning.

Our school operates on a break-even, non-profit basis and relies on your support as parents regarding prompt payment of fees.

We would like to kindly request that if you have **not yet** settled your child's fees to date, please do so as after half-term your child (ren) **will not have access** to the online learning portal. Please make the fee payments as early as possible so that your child can continue learning without any interruptions.

Kindly contact us for any further clarifications or questions.

Thank you for your continued support. Have a wonderful half-term break.

Ms. Florence.

RETURN TO SCHOOL SURVEY - PARENTS

With the recent announcement by the Government, it has been an unusual and unsettling time for parents, children and for us as teachers. We would like to know how we can help support our parents and children when they return to on-site learning in school.

Kindly respond to the questions on the survey attached to let us know how best to prepare for your children coming back to school.

It would really help us if you could also talk with your child about some of the questions on our survey and see what they think about them.

LEARNING JOURNEYS - FLAMINGO CLASS - TERM ONE

Our focus is on the Flamingo class children who moved up from the Crèche class in September. They are now 2 $\frac{1}{2}$ years old. The photographs of their amazing work demonstrate their love of learning all the new concepts being taught through our Online Learning program.

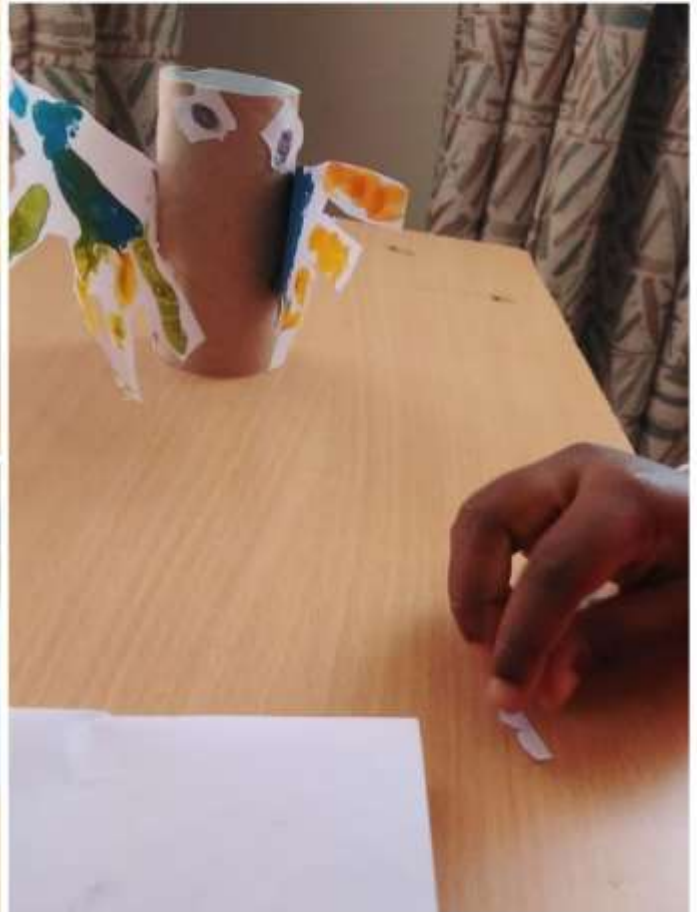

Creativity is
as important as
literacy.
- Sir Ken Robinson

Your child develops creativity when they have lots of opportunities which challenge their ability to create.

Creativity supports every area of your child's learning and can be expressed in many ways to explore and discover the meaning of beauty, playfulness and imagination.

"You can't use up creativity, the more you use,

the more creativity you have."

Maya Angelou
